Dräger X-plore 9x00 and PAS X-plore

Product code: 3363584 · Series: Dräger PAS

The Dräger X-plore 9x00 and PAS X-plore are belt-mounted airline units for light-duty industrial work. The safe-flow pressure reducer and auto-test keep a steady, sufficient airflow even when supply pressure changes; a protected flow adjust adds air and a whistle sounds if the supply is too low. PAS X-plore works with lung demand valve masks, X-plore 9300 with X-plore 8000 headpieces and X-plore 9500 with full face masks.

- 01 Belt-mounted airline unit
- 02 Safe-flow pressure reducer and auto-test
- 03 Protected flow adjust for extra air
- 04 Whistle warning on insufficient supply
- 05 Type tested for explosive atmospheres
- 06 Models approved to EN 14593-1 / EN 14594
