

X-dock 5300/6300/6600

Product code: 83 21 882 · Series: X-dock

Dräger X-dock is a station series that automatically bump tests and calibrates portable Dräger gas detectors. The X-dock 5300 comes with one module and is ready to use; the 6300 and 6600 master stations can be expanded with up to 10 modules. A gas flow of 300 mL/min per module saves test gas, all test results are stored, and a compatible printer prints calibration or test certificates at the station.

- 01** Modules for X-am 3500/8000, X-am 1/2/5x00 and Pac devices
- 02** X-dock 5300 with one module; 6300 and 6600 expandable to 10 modules
- 03** 300 mL/min test gas per module (instead of 500 mL/min)
- 04** Test times under 10 seconds for standard sensors (CH₄, O₂, CO, H₂S)
- 05** Touchscreen, works without a PC, USB and network connection
- 06** Automatic leak and alarm testing, optional charging for X-am devices
- 07** 3 (5300/6300) or 6 (6600) test gas inlets, fresh air inlet and waste gas outlet

Technical data

BRAND	Dräger
MODEL	X-dock 5300/6300/6600
STATION FEATURES	X-dock 5300: master station with one module, limited to one module; X-dock 6300/6600: master station expandable to 10 modules; 3 (5300/6300) or 6 (6600) test gas inlets + one fresh air inlet + one waste gas outlet; gas flow 300 mL/min per module; touchscreen; USB 2.0 and network connection; 24 V power supply or 12 V car adapter
COMPATIBLE ITEMS	X-am 3500/8000 · X-am 1/2/5x00 · Pac

CODE	FEATURE
83 21 882	X-dock 5300 X-am 8000 · X-dock Master including X-am 8000 Module and power supply. 3 test gas connections. Limited to one module.
83 21 880	X-dock 5300 X-am 125 · X-dock Master including X-am 125 module and power supply. 3 test gas connections. Limited to one module.
83 21 881	X-dock 5300 Pac · X-dock Master with Pac module and power supply. 3 test gas connections. Limited to one module.
83 21 900	X-dock 6300 Master · 3 test gas connections. Can be expanded to 10 modules
83 21 901	X-dock 6600 Master · 6 test gas connections. Can be expanded to 10 modules
83 21 893	X-dock Module X-am 8000 · Supports Dräger X-am 3500/8000 devices
83 21 894	X-dock Module X-am 8000 (+) · allows charging of X-am 8000 devices
83 21 890	X-dock Module X-am 125 · Supports Dräger X-am 1/2/5x00 devices
83 21 891	X-dock Module X-am 125+ · allows charging X-am 125 devices
83 21 892	X-dock Module Pac · Supports Dräger Pac devices
83 28 300	X-dock Configurator · Complete system with pressure reducer, hoses and fastening material.
83 21 849	24 V/1.3 A plug-in power supply · Up to 3 modules
83 21 850	24 V/5 A plug-in power supply · Up to 10 modules
83 21 855	12 V car adapter supply · Up to 5 modules
