

Uniphos ASP-40 Tube Pump and Accessories

Product code: CF000769 · Series: Uniphos Tube Pumps

The Uniphos ASP-40 is a lightweight, rugged piston-type air sampling pump. It creates a vacuum in the barrel to draw an accurate volume of sample air through the connected detector tube; the integrated end-of-stroke indicator changes colour when sampling is complete. It is designed for the entire Uniphos tube range. Sampling lines and a tube holder are available as accessories.

- 01 Lightweight, rugged piston pump
- 02 End-of-stroke indicator changes colour
- 03 For the entire Uniphos tube range
- 04 Sampling lines 4 m and 15 m with tube holder
