

SPC 4400

Series: SPC

The Dräger SPC 4400 is a liquid-tight one-piece coverall certified to type 3, 4, 5 and 6 for decanting, maintenance and decontamination wherever liquid chemicals or particles pose a risk. It comes in two material options, CLF and CPM; soft fabrics keep weight and noise to a minimum. It works with any kind of respiratory protection system and is available in six sizes (S to XXXL) and three colours (yellow, orange, olive).

- 01 Liquid-tight one-piece coverall; type 3, 4, 5 and 6
- 02 Two material options: CLF and CPM
- 03 Hood design compatible with any respiratory protection system
- 04 Front zip and throat cover panel; quick donning
- 05 Six sizes (S to XXXL), three colours
