

SPC 4800

Series: SPC

The Dräger SPC 4800 is a splash protection suit certified as type 3, 4, 5 and 6, protecting against organic and inorganic liquids, viruses, bacteria and radioactive particle contamination. Its face cuff, proven in gas-tight CPS suits, is designed for full face masks; gloves and socks are permanently integrated, so no taping is required. The back-mounted zip keeps the front free of openings, and the complete CLF suit weighs under one kilogram.

- 01 Splash protection suit certified as type 3, 4, 5 and 6
- 02 Face cuff designed for full face masks
- 03 Permanently integrated gloves and socks; no taping required
- 04 Back zip with cover flap; no openings at the front
- 05 Anti-static interior; EN 1149 compliant version for ESD zones
