

Dräger X-plore 1300

Product code: 3951211 · Series: Dräger X-plore 1300

The Dräger X-plore 1300 is a new generation of pre-formed particle-filtering disposable dust masks giving effective protection against fine dust, solid particles and aerosols, available in all three EN protection classes FFP1, FFP2 and FFP3. The ergonomic moulded body gives a comfortable and secure fit for many face shapes and sizes; the generous inner volume supports comfort and easy communication, and the reinforced inside keeps the mask shape stable over time. The VarioFLEX head harness with EasyStop is easy to put on, take off and adjust; the continuous tear-resistant textile strap spreads the pressure evenly. Colour coding of nose clip and valve identifies the protection class at a glance: dark blue (FFP1), light blue (FFP2) and white (FFP3). The CoolSAFE filter material delivers highly efficient filtration with very low breathing resistance; the masks exceed the dolomite dust test requirements for heavy dust exposure. The CoolMAX exhalation valve is optional for all protection classes; odour-stop versions (FFP2 and FFP3) have an extra layer of activated carbon. The mask is for single-shift use (NR). It is approved to EN 149:2001+A1:2009 and AS/NZS 1716:2012.

- 01 Protection classes FFP1, FFP2 and FFP3
- 02 Dolomite tested (D), single shift (NR)
- 03 Pre-formed body, VarioFLEX harness with EasyStop
- 04 Colour coding: FFP1 dark blue, FFP2 light blue, FFP3 white
- 05 Optional CoolMAX valve and odour-stop version
- 06 EN 149:2001+A1:2009, AS/NZS 1716:2012
