VERTEXWORKWEAR · HAND PROTECTION · HEAT-RESISTANT

VertexWorkwear Fire-Max Pro firefighter glove with knitted cuff (MED)

Series: Fire-Max Pro

Firefighter glove (PPE category III) to EN 659 for direct firefighting, such as flashover and indoor firefighting, and for rescue, recovery and technical assistance. The palm is silicone-coated Kevlar and the back is Nomex. A breathable PU membrane keeps water out and forms a barrier against bacteria, blood and chemicals. The cuff is flame-retardant knitted Kevlar with pulse protection. The whole glove is stitched with Kevlar thread.

01 EN 659:2003+A1:2008 and EN 420:2003+A1:2009, PPE category III

02 EU type-examination UE-000721/00 by Eurofins (notified body 2865)

03 MED approved (MED/3.5), RINA certificate MED139924XP

04 Palm in silicone-coated Kevlar, back in Nomex

05 Knuckles with shock-absorbing impact protector

06 Aramid felt on the back of the hand against heat, Kevlar lining, PU membrane

07 Flame-retardant knitted Kevlar cuff with pulse protection

08 Snap hook to hang the gloves on clothing
